Secrets
Web Exploitation
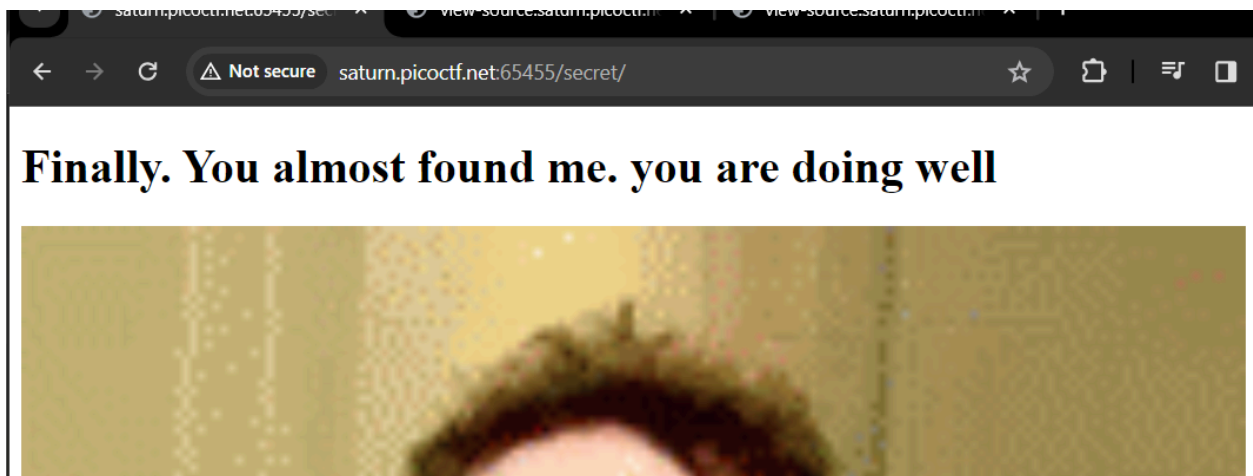

<u>Description:</u>

We have several pages hidden. Can you find the one with the flag?

<u>Hints:</u>

   1) folders folders folders
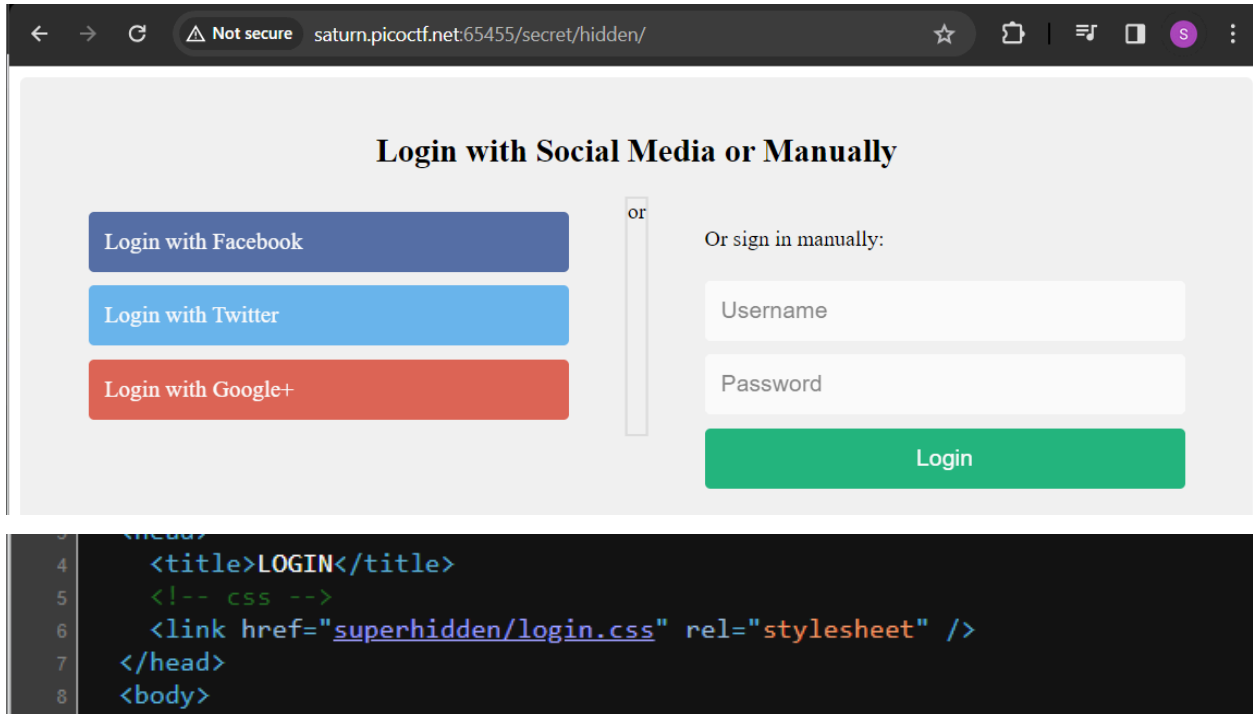

<u>Solution:</u>

   1) When we look at the source code we see a secret folder and when we go to the location we are told we are close.

2) Then again in the source code we see another folder called hidden which we navigate to to find another part of the webpage.

3) In the source code for this part of the page we find another hidden file called superhidden which when we navigate to we find the flag.
